

6th European Surface Mount Conference

16-18 November 2004, Old Ship Hotel, Brighton, UK

Start: 5pm Tuesday 16 November 2004 - Finish: 5pm Thursday 18 November 2004

The Ultimate
Conference Dedicated
to Lead-Free

a biennial event organised by SMART Group

BRIGHTON 2004

a guiding influence in the electronics industry

The Ultimate
Conference Dedicated
to Lead-Free

The premier networking and educational event for the European electronics manufacturing industry.

This is an opportunity for you to spend time with others in electronics manufacturing, to get the pulse of the industry and to learn things that will have an immediate impact on your company's business.

Register for this event and one inclusive fee will cover...

- Two nights in the conference hotel
- All meals including the reception and gala dinner
- Three** half-day technical instructional workshops (**a list of nine to choose from**), led by internationally renowned engineers and educators
- 2 Keynote presentations by Mark Hutton (BPA Consulting) and Phil Zarrow (ITM Consulting - USA)
- Question Time - all lead-free... ask the experts
- 3 focus presentations
- Special Presentation -
Challenges of Manufacturing Electronics for Space
What does a satellite look like inside - What the electronics has to survive
How to manage the environment - What's next for space technology
- Table Top Exhibition
- Lots of networking and entertainment

be there!

All this for just **£535** +VAT (SMART Group members' rate)

THE TECHNICAL WORKSHOPS

There will be 9 non-commercial half-day technical workshops from which to choose:

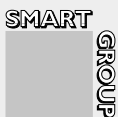

Troubleshooting your lead-free reflow process	Phil Zarrow	ITM Consulting
Components in a lead-free world	Angus Westwater	ROHM
	Bill Plumbridge	Open University
Lead-free reliability	Jean-Paul Clech	EPSI New Jersey
Lead-free: a million and one practical issues - part 1	Dave Hillman	Rockwell Collins
Lead-free: a million and one practical issues - part 2	Doug Pauls	Rockwell Collins
What does lead-free mean for electronics reliability?	Alan Brewin	National Physical Laboratory
Lead-free in consumer electronics	To Be Confirmed	
X-ray and optical inspection for lead-free assemblies	Nick Hoo	Tin Technology
	David Bernard	DAGE Precision Industries
Troubleshooting your lead-free wave-soldering process	Bob Willis	Electronic Presentation Services

ADDITIONAL EVENTS & SESSIONS

Evening Question-time:	Lead-free... Ask the experts
2 Keynote addresses:	Future worldwide demand for electronic systems & components The true cost of going lead-free
3 Focus presentations:	WEEE & RoHS legislation: current status and an industry perspective Placement machine concepts and characteristics SMART Group Lead-Free Experience - results and conclusions
After Gala Dinner Presentation:	Challenges of manufacturing electronics for space
